PERMIT, NO. 7681-M2

TIGER COMPRESSOR STATION
(XTO ENERGY) FOR AN AIR QUALITY AQB 21-41
PERMIT, NO. 7623-M2

FINAL ORDER

This consolidated matter comes before the Deputy Secretary of Environment¹
following a public hearing before the duly appointed Hearing Officer on October 25-26,

¹ See June 26, 2021, Delegations of Authority.

2021. The public hearing was held virtually via the Zoom platform with the option for individuals to attend the virtual hearing at a location within the appropriate geographical area, consistent with the Amended Scheduling Order entered August 6, 2021.

XTO's eight facilities covered by this Final Order are either compressor stations or gas plants. Compressor stations aid in the movement and transport of natural gas from the well site. The compressors provide the natural gas with adequate pressure to move through the pipeline and are necessary to overcome the pressure losses due to friction, distance, and elevation changes that would otherwise slow the movement of gas in the pipeline. The Cowboy Central Delivery Point is a gas plant with multiple purposes. Each of the eight facilities are described briefly below.

1. Bulldog Compressor Station, Permit No. 8153-M1

The Bulldog Compressor Station is located in Eddy County, New Mexico. NMED issued NSR Permit No. 8153 for Bulldog on May 7, 2019. The air permit application requested a significant revision to NSR Permit No. 8153.

2. Jayhawk Compressor Station, Permit No. 8152-M1

The Jayhawk Compressor Station is located in Lea County, New Mexico. NMED issued NSR Permit No. 8152 for Jayhawk on May 7, 2019. The air permit application requested a significant revision to NSR Permit No. 8152.

3. Longhorn Compressor Station, Permit No. 8394-M2

The Longhorn Compressor Station is located in Eddy County, New Mexico. NMED issued GCP O&G Permit No. 8394 for Longhorn on June 13, 2019, and NSR Permit No. 8349-M2 on January 16, 2020. The development plans for the Longhorn facility

changed, necessitating an NSR Permit. The air permit application requested a significant revision to NSR Permit No. 8394-M1.

4. Cowboy CDP, Permit No. 7877-M1

The Cowboy Central Delivery Point is a gas plant located in Eddy County, New Mexico. NMED issued NSR Permit No. 7877 for Cowboy CDP on November 16, 2018. The air permit application requested a significant revision to NSR Permit No. 7877.

5. Wildcat Compressor Station, Permit No. 7474-M2

The Wildcat Compressor Station is located in Eddy County, New Mexico. NMED issued NSR Permit 7474 for Wildcat on January 3, 2018, and NSR Permit 7474-M1 on February 6, 2019. The air permit application requested a significant revision to NSR Permit. NMED initially issued the revised permit for Wildcat on February 19, 2021, but NMED then withdrew the permit on March 3, 2021, for “procedural flaws.”

6. Maverick Compressor Station, Permit No. 7565-M2

The Maverick Compressor Station is located in Eddy County, New Mexico. NMED issued NSR Permit 7565 for Maverick on March 7, 2018, and NSR Permit 7565-M1 on February 6, 2019. The air permit application requested a significant revision to NSR Permit 7565-M1.

7. Spartan Compressor Station, Permit No. 7681-M2

The Spartan Compressor Station is located in Eddy County, New Mexico. NMED issued NSR Permit 7681 for Spartan on June 13, 2018, and NSR Permit 7681-M1 on February 7, 2019. The air permit application requested a significant revision to NSR Permit No. 7681-M1.

8. Tiger Compressor Station, Permit No. 7623-M2

The Tiger Compressor Station is located in Eddy County, New Mexico. NMED issued NSR Permit 7623 for Tiger on May 2, 2018, and NSR Permit 7623-M1 on February 7, 2019. The air permit application requested a significant revision to NSR Permit No. 7623-M1.

Following a complete administrative and technical review, and a two-day public hearing, the Air Quality Bureau and the Hearing Officer recommend the approval of eight draft permits to allow construction and modification with permit conditions necessary to protect human health and welfare and the environment.

Having considered the Hearing Record as defined in 20.1.4.7 NMAC, including all post-hearing submittals and the Hearing Officer's Report, and being otherwise fully advised regarding these consolidated matters,

THE DEPUTY SECRETARY HEREBY ADOPTS THE HEARING OFFICER'S REPORT AND FINDINGS OF FACT AND CONCLUSIONS OF LAW.

IT IS THEREFORE ORDERED:

The applications for air quality permits are granted, and the corresponding eight permits shall be issued by the Air Quality Bureau in the form set forth in the Draft Permits, as shown in the corresponding Administrative Records.
